

## Buying and activating the Graphics Toolbox Software.

After downloading the Graphics Toolbox Program and User Manual

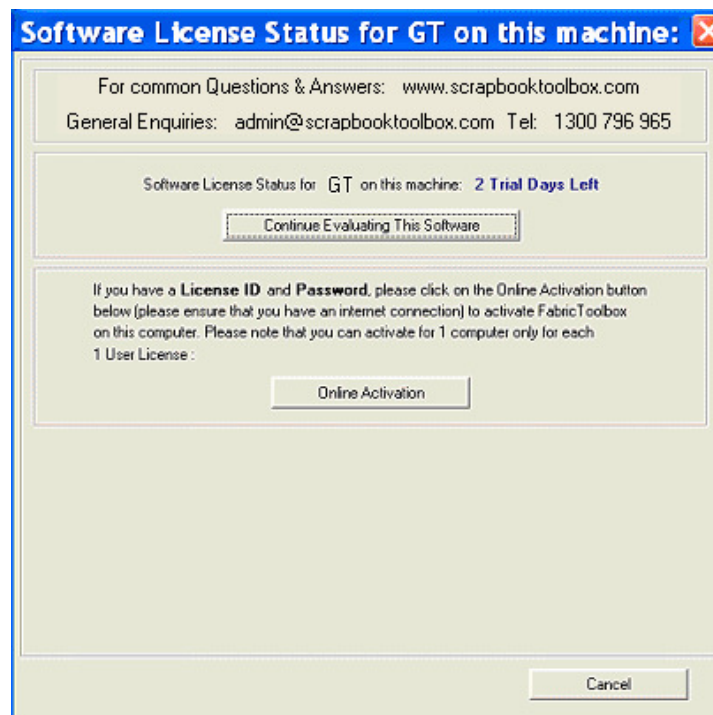

1. Double click the Graphics Toolbox setup file (i.e. gtsetup.exe) and follow the prompts.
2. The Graphics Toolbox icon is installed automatically in the All Programs section
3. Click on the Graphics Toolbox program button in All Programs to start  
(A number of installations do not install wintab32.dll. Wintab32.dll is a file created by Wacom for use with their Drawing Tablets. Download the file here - <http://www.fashionmatters.com/wintab32.zip>, unzip the file and copy to the Windows/System folder of your PC)

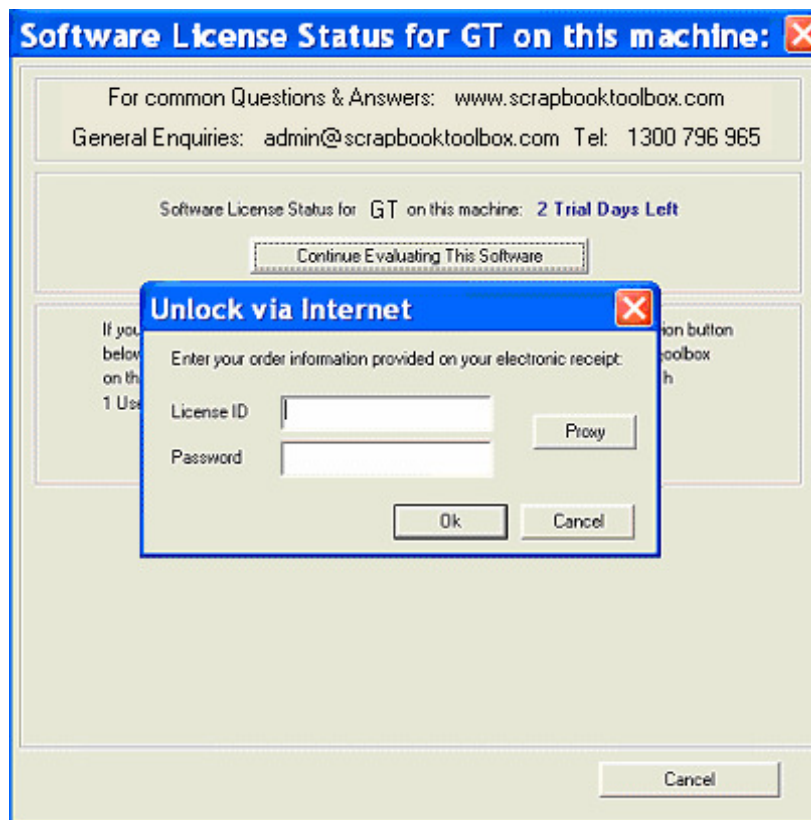

4. If you have Administrator privileges, change the User name to your own and type in your password. If you are not the Administrator and you do not have Administrator privileges, uncheck "Protect my computer and data from unauthorized program activity" and click OK as illustrated in the next image.

5. Now continue to the next screen and click on “Continue Evaluating This Software” or if you wish to purchase this software, then click on “Online Activation”.

6. If you have clicked "Online Activation", you will need your License ID and Password as received after your purchase of the software. Payment can be made through our on-line store at <http://www.fashionmatters.com/store.html>.

Once entered, the Trial Screen will disappear and you will have a full copy of the Graphics Toolbox software.
